WHO AM I?

I am a professional technology consultant, trainer and *remote-first* web-developer, curious about staying up to date with the latest tech-stuff. I think and act agile because I truly believe in the power of intrinsic motivation in a self-organised team. Let's build awesome products together!

"We are what we repeatedly do. Excellence, then, is not an act, but a habit." – Will Durant

EXPERIENCE

- 12/2018 – present** **Full stack developer** **Stopp Air Base Ramstein Campaign**
part time
Designing and implementing a **Progressive Web App** for mobile use. The app allows a user to build his/her own calendar from a list of all events by marking some as favorite. **Push-Notifications** are sent when a change occurs, e.g. when an event is rescheduled. The project is non-profit and the code available on [Github](#). See [Heroku](#) for a live demo.
Angular 7 / Material Design / NodeJS / MongoDB
- 4/2018 – 3/2019** **Frontend developer** **Deutsche Telekom AG**
Developing a web-application to create and modify complex language models. As part of the team **Machine Learning** in the project Smart Speaker, we provided an interface for a team of Linguists and Editors with which they could train the language model to better understand the consumer. I also organised **Retrospectives** and Design Thinking.
Angular 5-7 / NgRx / Bootstrap / Scrum / Vue.js / ngx-translate
- 3/2018 – 5/2018** **Frontend developer** **Pflege zu Hause Küffel GmbH**
part time
Development support for a **Redux**-based web-application for distributing nursing staff to elderly people in need of care
React.js / Bootstrap / jQuery Widgets
- 08/2016 – 3/2018** **Trainer** **Opitz Consulting**
part time
Teaching colleagues and customers in modern web-technologies. I gave introductions in web-development to beginners (e.g. how **SPAs** work) as well as coaching experienced programmers in special use-cases (e.g. **RxJS**).
Angular 2-5 / Git / HTML5 / CSS3
- 10/2017 – 3/2018** **Project lead** **Eurogate GmbH & Co. KGaA, KG (via Opitz Consulting)**
Designing and implementing a system for data-handling in complex container-logistics. I introduced **agile development** and designed the workflow for the deployment. In a team of two, we created **npm-Packages** for View-Components, Authentication and Form-Validation.
Angular 5 / npm / Living Styleguide / Scrum
- 10/2017** **Frontend architect** **YOMA Solutions GmbH (via Opitz Consulting)**
Creating a **Proof of Concept** application for communication between car dealerships, manufacturers and customers and deploying it to the AWS-Cloud.
Angular 4 / AWS / Scrum / Bootstrap

9/2016 – 9/2017	Frontend developer Developing complex view components for the website's member area. This included extending the Living Styleguide , deploying it in a microservice architecture and organizing Scrum Events. LESS / jQuery / JSP / Atomic Design / BEM	Comdirect Bank AG (via Opitz Consulting)
7/2016 – 8/2017	Project lead Designing and developing a Proof of Concept Webapp for finance planning. In a team of two, we handled requirements engineering, UI/UX Design with Design Thinking , Architecture, Implementation, Deployment and Presentation. Angular 2 / Bootstrap / D3.js / Stylus / Kanban	Comdirect Bank AG (via Opitz Consulting)
2/2016 – 7/2016	Developer Implementing a fully automated printing system for invoices in an agile Team Java / Spring / XSLT / Maven	Libri GmbH (via Opitz Consulting)
9/2015 – 12/2015 part time	Teamlead Frontend Implementing a SPA for sharing economy, including designing a REST API and agile methods Angular.js / Scrum / Apache / Leaflet	yunity.org
7/2015 – 8/2015 part time	Trainer Coaching teachers in the use of CMS (Posting, Theming, Plugins) for the school's homepage Wordpress	Goethe Gymnasium Hamburg
9/2014 – 6/2015	Developer Developing a framework for content-publishing to iOS -Apps via a self-hosted Cloud Ruby on Rails / C# / ORM / IntelliJ	AppVantage GmbH & Co. KG
11/2013 – 8/2014 part time	Developer Developing and testing an Android-based car infotainment system for the Volkswagen-Group Java / Android / Scrum / TDD / Gradle	e.solutions GmbH
11/2012 – 10/2013 part time	Developer Designing and implementing an integrity system for supply chains on TI microcontrollers C++ / MIPS-32 / Kanban	Fraunhofer Institute for Integrated Circuits
2/2012 – 10/2012 part time	Trainee Accompanying the introduction of Windows 7 and handling large amounts of data in Excel MS Office / Windows 7	Siemens AG, Sector Energy
2/2012 – 10/2012 part time	Tutor Giving lessons on programming, correcting exercises and assisting students Java / Graphic Algorithms / Eclipse / Ant	Friedrich–Alexander University Erlangen–Nuremberg

EDUCATION

2012 – 2014	Information and Communication Technology Graduation: Bachelor's Degree	Friedrich–Alexander University Erlangen–Nuremberg
2009 – 2012	Computational Engineering Participation in student representative body	Friedrich–Alexander University Erlangen–Nuremberg
2008 – 2009	Mechanical Engineering	Friedrich–Alexander University Erlangen–Nuremberg

LANGUAGES

German - native
English - proficient
Spanish - basic
French - basic
Swedish - basic

HOBBIES

I love sports, especially snowboarding and cycling. Cooking is my passion and I have already given a few lessons. My next goal is to become a meditation teacher.

NON PROFIT

As an active member of Foodsharing, I organise PR and festival communication. I donate to HOPAD, an orphanage in Kathmandu and have an active profile on codingcoach.io.
