

The First
International Conference on
Code Quality (ICCQ)

ICCQ is organized in cooperation with the IEEE Computer Society.

Moscow, Russia

27-Mar-2021 (one day)

www.iccq.ru / EasyChair CFP

Sponsored by and held at HSE University.

Estimated attendance: 150-200

Estimated number of papers submitted: 50+

Papers to be accepted: 10

Topics: Static Analysis, Bug Detection, Maintainability.

Papers will be published in the *Proceedings of ICCQ*, will appear in IEEE Xplore[®], and will be indexed by Web of Science, Scopus, Google Scholar, DBLP, and others.

Thanks to our partners, publishing will be free.

We believe that the quality of the source code that millions of programmers write every day could be much higher than it is now. We believe that the contribution computer science can make to improve this situation is greatly undervalued. We aim to solve this problem by gathering together cutting-edge researchers and letting them share their most recent ideas.

Paper submission date: 4 Dec 2020

Author notification: 5 Feb 2021

Camera-ready submissions: 19 Feb 2021

ICCQ is also sponsored by: Ivannikov Institute for System Programming (ISP) of the RAS, Moscow State University (MSU), Moscow Institute of Physics and Technology (MIPT), RUSSOFT, SECR, Huawei, SberCloud, Yandex, Kaspersky, and others.
